

The principle aim at 345 Nursery is to make sure your child has the happiest start on their educational journey and to ensure that when they leave us they have gained a sense of independence, self-confidence and a real desire to learn.

345 provides a safe, happy and warm atmosphere in which children can explore and discover that learning is fun. We particularly value the importance of learning in the outdoors and collaborating as a team whilst promoting responsibility. Throughout their day, whether at play, doing art and craft or any other activity, they will be learning a variety of social and communicative skills – sharing and caring for others, expressing their opinions, coping with their emotions, natural inquisitiveness and growing awareness of all that is around them.

Our curriculum is as broad as possible – offering the children a taste of innumerable experiences whilst covering The Early Years Foundation Stage as compiled by the DFES. We select topics which reflect the children's interests and base our learning and art projects around them. The children's results are always on view around the school and they take great pride in showing everyone what they have produced.

At the centre of the Early Years Foundation Stage are 3 prime areas, Communication and Language, Physical Development and Personal, Social and Emotional Development. There are 4 further specific areas; Literacy, Mathematics, Understanding the World and Expressive Arts and Design. All areas are important and inter-linked.

At the core of our planning is the child as an individual. We adapt our teaching to suit the way each child learns and to meet their particular needs. We believe that the key to successful learning is underpinned by having good critical thinking skills, the ability to listen, retain and apply the information and skills they have gained. Children need to have the confidence to predict outcomes, work collaboratively and challenge situations.

We also place great importance on all forms of music and have a resident music teacher. We have peripatetic teachers for Sport and Spanish.

The entire school performs a musical Nativity Play at Christmas; we have a Sports Day in the Summer and an annual topic related trip each Spring. We also invite a variety of local people to visit 345 during the school year, for example the police, fire brigade, nurses and doctors. We have science and music workshops, informal concerts for Mothers and Grandparents Days and Bring your Daddy to school day. In addition we arrange trips to the theatre, art galleries and museums.

We operate 345 with a structured morning, giving the children a sense of security in the familiar pattern of each day. The children work individually and in groups, learning through play, exploration and investigation, and are introduced to letters and numbers at an early stage.

Children have the opportunity to stay for a packed lunch and join in the Afternoon Clubs until 3.15pm from Monday to Thursday.

All our teachers are trained whether as full primary teachers, Montessori or Early Years practitioners or have Degrees in Early Years; we have additional assistants to ensure we maintain a high ratio of staff to children.

Parents have a vital role to play and are very much valued as part of our team. We believe in instilling strong family values which embrace our diverse community. To this end we like to keep in very close contact with parents throughout the time their children are with us. We organise Parents' Evenings in the Autumn and Spring terms at which teachers and parents can discuss progress and we write reports at the end of the Summer Term. Informally, we are always available to discuss any aspect of a child's development. We strongly believe that school plays only one part in this and that we are here to help the children, in any way we can, to reach their highest potential by the time they leave us. The school also has a good and active PTA.

We have excellent relationships with all the primary schools in the area and are happy to assist parents in making the important choice of where to send their children after 345.

We hope this gives you an insight into life at 345, but do please come and see for yourself. We very much look forward to having your children here with us at 345.

Sarah Simeon
Mont. Dip.
